EDUCATION

- **M.Sc. in Computer Science (Machine Learning Specialization)**
 - *Focus: Applied mathematics, statistical modeling, and deep learning algorithms.*
- **Diploma in Software Engineering (2013-2015)**
 - *Hands-on experience in full-stack web development and mobile app creation.*

WORK EXPERIENCE

- **Data Scientist | Analytics Team (2019-2023)**
 - Led research, design, and development of Machine Learning and Deep Learning algorithms to tackle complex fraud-oriented challenges.
 - Collaborated closely with software engineers and program managers to deliver end-to-end products, including large-scale data collection, analysis, model development, and validation through to production.
 - Developed predictive models that enhanced decision-making processes, reducing operational costs by 25%.
- **Software Engineer | XYZ Corp (2018-2022)**
 - Developed scalable backend applications, improved system efficiency by 30%, and led agile development sprints.

SKILLS

- **Machine Learning & Statistics:** Proficient in developing complex models using modern frameworks (TensorFlow, PyTorch, Scikit-learn) with a solid foundation in applied mathematics.
- **Software Development:** Expert in writing clean, concise, and production-ready code in Python and Java.
- **Big Data & Engineering:** Hands-on experience with Big Data pipelines, data collection at scale, and Spark-based processing.
- **Domain Expertise:** Specialized in fraud prevention and security analysis in telecommunication and enterprise environments.

CERTIFICATIONS

- **Certified Ethical Hacker (CEH):** Demonstrated proficiency in ethical hacking, network security, and vulnerability assessment.
- **AWS Certified Solutions Architect:** Expertise in designing and deploying scalable cloud-based infrastructure.

ACHIEVEMENTS

- **AI Innovation:** Developed an AI chatbot that reduced customer support tickets by 40%, significantly enhancing user experience and operational efficiency.
- **AI Ethics:** Published a research paper on AI ethics; contributed to an AI ethics framework adopted by industry leaders to shape responsible development.

TECH STACK

- **Languages & Frameworks:** Python, Java, Spring Boot, TensorFlow, PyTorch, Keras.
- **Data & Infrastructure:** PostgreSQL, MySQL, Kafka, Spark, Docker, Kubernetes, Azure DevOps.
